20. The overall quality of teaching-learning process in your institute is very good.

122 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

56 responses

Teachers should also discuss about competitive exams

No suggestions required

No comments

No suggestions

Improve the equipment

To
teach slowly. To give notes for important topics and lessons. To give chance of
giving seminars to students. To revise previous class topics.

Teach
as much

1. initiate
more student exchange programmes to have knowledge about other colleges

No
suggestions

Make
more lab works Teaching of life skills employability skills for our future work
Teachers should communicate about outcomes after graduation with students

1. To
increase dept timings 2. Increase the equipment in every dept. to meet the need
of patient as we have a lot of op every day

Make
more lab works Teaching of life skills and employability skills Teacher should
communicate with students about outcomes after graduation

1.
Interaction between teachers & students. 2. Improve the equipment quality of
every department.

Department
equipment should be a little more bcoz patients (op) is more

Fee
particular s

1.
Free wifi 2. Regular ppt uploads corresponding to the class taking place 3. pop
up quiz apps to refresh our knowledge about our subjects

Fee
and faculty

Need
excursions....

student
participation in learning should be active with teachers teachers and students
bonding should be friendly so that active and easy learning will be smooth by
their support

satisfied
well and improve learning and teaching.

Improve
more

1.
The amount syllabus covered in a single day is so huge in anatomy. 2. DADH
carving we need more tutoring than teaching.

To
give outer knowledge about subject

Every
aspect is good...

1.e-learning
programme 2.conducting workshops 3.we need campaigns

Teaching
very good

Better
interaction with tha students

More
student interactions needed

There's
nothing to suggest for the institution it's been years since it was established
so I can't judge as it was my first year in the institute and the teachers know
how to make us understand the subject

Should
cover the whole syllabus and they should teach in a way student can understand

OVERALL.....it
is very good

It
might be better

teaching
good

Improve
the interaction between students and teacher

Showing
animated videos and diagrams for proper understanding of every student

Work
shops Campaigns

There
is no suggestion regarding our staff teaching because they are excellent in the
way they teach to us

They
must be friendly to students approachable concern

Teaching
was good

Eco
friendly campus must be needed

Must
be eco friendly student friendly

Communication
with students as possible as they can

Teaching
is good

1)
Not only teaching the subject but also with the involvement of daily aspects. 2)
Teaching very fast is slightly unacceptable.

1)
understanding of student's issues with individual attention 2) more
communication 3) none

according
to my observation my institute is pretty good all the teaching - learning
experiences are well... happy to be lenoraian

Just
need economical growth & some interactions with other colleges

Good

Still it can
be more productive and the point to be concerned is that the subject is going
into the head of the student or not and not the completion of the
syllabus

Increase
work shops and camps for every year students.
